

VISCOUNT DE VAUX'S TRAVELLING APPARATUS,

*For the Military and other Travellers.*Made and Sold by ~~Viscount De Vaux, 7, Little Charles-Street, Fitzroy-Square, London~~, and may also be seen at the VISCOUNT DE VAUX's, N° 7, Little Charles-Street, Fitzroy-Square.

THIS APPARATUS, which has the advantage to be carried easily on horseback, *contains at least an hundred different articles of the first necessity*, in as small a compass, as one foot in length, and six inches in diameter.

It can be made cheap for those who do not wish to be at a great expence, and could be made an object of luxury of a fine appearance, if wanted; and none of the articles in it can be either broke, or spoiled by the wet.

A List of the Articles contained in the Travelling Apparatus.

Two large portfolios, one for letters, &c. of one foot square; the other for writing paper: the first shuts with a key, and can contain papers of consequence.

Another large pocket at the top, to put several detached articles in, which will be mentioned the last.

Articles for Writing and Drawing, having each their Cases.

A large round leather case, with a private fastening; the middle part to contain money, &c. if wanted; at one end a brass ink pot, with a contrivance to keep the ink from getting out, and at the other end a place for wafers: in that leather case (instead of money) can be put, pens, pencil-case, sealing-wax, India-rubber, an ivory knife, a compass, a little ruler, water colours, India-ink, a foot measure, brushes for drawing, &c. an etweeser, silver bodkin, little keys, and watch key for a change.

Articles, each in their Cases, for Writing.

A pen-knife, a sand-box, a seal, a little bottle of ink in powder, a memorandum-book with the days of the week in the looking-glass case.

Articles for dressing, each in their Cases.

Razors, a strop and hone to sharpen the razors, a small glass, shaving soap in powder or essence, shaving brush, cologne water, instruments to clean the teeth, combs, pin-case, a tooth-pick case, tooth-brush, scissars, a button-hook, bottle for oil, a bathing-cap, boot-hooks in steel.

In the Pocket at the Top,

Buckles of different sorts, buckle-brush, hair-ribbon, a silk handkerchief to put on the coat, a powder-knife, &c. *In the same pocket, other articles, separate, for different uses,—unguent for wounds, or cerate in a flat tin box, theriaca, a ball of mars for wounds, ipecacuanha, fishing tackles.*

Other Articles, separate, each in their Cases.

A little tinder-box, wax taper, sticking plaster, a pill-box, bottle for hartshorn, a piece of agaric to stop bleeding, needles, a pair of snuffers, a hammer with a screw, knives and forks, tea spoons, table spoons, a leather tumbler, a pair of cold irons, a pair of curling ditto, a powder horn, a leather bag to contain balls and flints, a mould to cast balls with a key united, and corkscrew.

In a little Pocket near the Top one,

A turn-screw, a worm to draw charge of a gun, a punch, nails, and screws, a file, gimblets, &c.

A large brown bag to contain the Apparatus, the night cap, the hair powder bag, and the pomatum in a tin box.

Allen, Printer, 15, Paternoster-Row.
